

方钻杆滚子补芯 **Roller Kelly Bushings**

方钻杆滚子补芯按驱动方式分，有四方传动和轴销传动两种；按类型分，有重型、中型、轻型，适用于17¹/₂in-49¹/₂in的转盘。产品按API Spec 7K 《钻井和井口操作设备规范》要求设计、制造。

Roller Kelly Bushings can be classified as two types based on different ways of drive, square drive and pin drive. Also they can be classified as three types based on different styles, heavy, medium and light-duty. They are used for 17¹/₂ to 49¹/₂ inch rotary tables. They are designed and manufactured according to API Spec 7K Specification for drilling and well servicing equipment.
